

Worse Than You "The Outcome"

Visit "[The Outcome](#)" on MotoLyrics.com

Not a day goes by that I don't give a thought
to the moments shared and to the things that we have
done

But now you've gone, faster than a glance
you didn't even give me a second chance

Looking back into the past
I should have never let you down
let you down

If you're away from here then nothing is alright
I wish I could leave it all behind
If suffering's the outcome then nothing really mattered
I wish I could leave it all behind

I know I'm not who you wanted me to be
Happiness isn't what always love brings
I couldn't live up to your expectations
How will I cope with my frustration?
Looking back into the past
I should have never let you down
let you down

If you're away from here then nothing is alright
I wish I could leave it all behind
If suffering's the outcome then nothing really mattered
I wish I could leave it all behind

Looking back into the past
I should have never let you down
let you down

If you're away from here then nothing is alright
I wish I could leave it all behind
If suffering's the outcome then nothing really mattered
I wish I could leave it all behind
