On the way to redemption  
Through the path of destruction  
There are no ways to look back  
Darkness is already here...

Verdammnis und vergebung  
In den Armen der Leere  
Wiedergeburt in Schmerz

... we have no way to escape  
We would like to live one more day  
To feel sorrow one more day...

The masochism of our life  
Is realism of death!  
How could we forget  
The pain we gave to nature?

Now we have to pay  
To pay with our lives

Kill yourself and Worship...
