I can't believe my love
This feeling that you give me
I'm really high above
The world seems small and silly
I look at what is left
Of all my disappointment
And I can't find a trace
Of any kind of torment

I wanna stay out here till the end of time (end of time)
I finally see the view out from this cold night (this cold night)
I wanna stay until the morning comes to wake us
And see if life will take us
As long as we're in love
In love

I can't believe my love
Cullings on my shoulder
He's whispering sweet and low
As we fly across the ocean
I look at what is left
Of all my disappointment
And I can't find a trace
Of any kind of torment

I wanna stay out here till the end of time (end of time)
I finally see the view out from this cold night (this cold night)
I wanna stay until the morning comes to wake us
And see if life will take us
As long as we're in love
In love

With your eyes so brown
And your burly frown
You could light it up the gloomy eastern skies

I've been waiting for
Someone to adore
To just hold me tight and see me through the night

I wanna stay out here till the end of time (end of time)
I finally see the view out from this cold night (this cold
night)
I wanna stay out till the morning comes to wake us
And see if life will take us
As long as we're in love
In love
As long as we're in love
(I'm in love)
In love
As long as we're in love
In love
As long as we're in love
In love
