### "Lift-Off"

Right way down the wrong road  
Wrong way down the right road  
Hey man, watch where you're going  
Hey man, watch where you're going

Lift-off!  
We're on our way home  
Lady, that's when you'll say to me:  
"We'll do what we can..."

We're in orbital mode  
We're on our way to the top floor  
Hey man, watch where you're going  
Hey man, watch where you're going

Lift-off!  
We're on our way home  
Lady, that's when you'll say to me:  
"We'll do what we can..."  
Anything at all to make you comfortable  
Before we re-enter the atmosphere"

If a crash-landing ends our trek  
I'll be first to leave the wreck  
Hey man, go where I go  
Hey man, know what I know

Lift-off!  
We're on our way home  
Lady, that's when you'll say to me:  
"We'll do what we can..."  
Anything at all to make you comfortable  
Before we re-enter the atmosphere"
