[Talking:]

It's crazy, cah I remember when I never felt like this.
It was only the other day I was lying next to you.
I remember I done ish, you forgave me.
Even though I can't say (heh).
But we both know that nothing lasts forever.
(Psssh) listen

[Verse 1:]

Cah I am not with you no more
You're no good for me, you're just bringing me down
My sun shines in the rain while you're giving me clouds
I once cried and complained now I'm kicking out
Cah I refuse to live in doubt, I don't trust you
It's weird 'cos I love you, but fear cannot love
Who it chooses to scare
Now I'm stressed out losing my hair
What's next I ain't losing the year
You're supposed to be my crutch
As of lately you provoked me enough
Especially when I'm closed to being up
I'm finishing my album, you're tryna kick when I'm
down and
Focusing on other tings, a real woman's supposed to
be mothering
Not like holding a grudge and ting, when I'm in the
studio late
And when I don't come home for a few of the days
Out the week, that just means that I'm doing it babe
Allowed to speak, of course you are
But don't force it cah
I never liked that you crossed the line
You said something that shouldn't even crossed your
mind
And that's a criminal sentence so do the time
Without me. I'm just doing I
Allow me I am through that wire
I'm now free, I am moving higher
I'm proud to see that you're cruising higher
(Huh) but I am not beside ya

[Chorus:]

All that I need

Is my own space, I've been chilling on my own for days,
I say

All that I need

Is my own space, I've been chilling on my own for days,
I say

All that I need

Is my own space, I've been chilling on my own for days,
I say

All that I need

Is my own space, I've been chilling on my own for days

[Verse 2:]

We got one, another one's on the way

And right now we don't know if that one's gonna stay

Plus I can't look my son in the face, cah I remember the
day

That I told his mum to chuck him away

But she never listened

She gave birth I was there to vision

"It's a boy" was the words I whispered

(Huh) and I remember that look on your face

When the nurse said "Push it again"

You're like "I can't mommy"; I was like "You're pushing
it babe"

You're like "It's hard bubby", the tears would fall on
your face

I'm like "Go on honey"

Then I gave you a kiss on your lips

(Huh) it's weird that I'm picturing this

Cah fast-forward as I listen to this (all that I need) -
pissed

(Huh) listen we learnt a lesson that we'll never dismiss

Cah I never thought we'll end up like this

(Huh) cah perfect films always end with a kiss

And I swear we're at the end of the script

Cah every time I try read you, I just remember the b*tch

I try leave you, and then I end up in bits

I don't think this could ever be fixed

[Chorus:]

All that I need

Is my own space, cah I've been chilling on my own for
days, I say

All that I need

Is my own space, I've been chilling on my own for days,
I say

All that I need

Is my own space, cah I've been chilling on my own for
days, I say

All that I need
Is my own space, cah I've been chilling on my own for
days
All that I need
All that I need
All that I need
All that I need
All that I need
All that I need
All that I need
