You and me, we failed to see
Nothing lasts forever

First off look I still love you
But that don't mean we have to stay together
Cause there ain't nothin' that remains forever,
A fact of life you can't change the weather,
Bring back the nights when I gave you pleasure,
Ignite the fire when it's pissing rain
Our separation hit me harder than my father when I
misbehaved,
I'm still scarred but I don't miss the pain,
I feel daft but yeah I miss you babe,
But I'd look after my kid the same, the same Jermaine,
I nearly cried when my baby first smiled
That just made it worth while so I told him,
Disappeared then I came back from a closed end
I was even risking being back cause she's moanin',
She's moany - that's her problem; I don't really have a
problem,
Who am I kidding man, I am the problem
In fact if we weren't debatin' it's like were
communicating
My back she knew she'd be facin' but did prefer that
option,
It would be worser off if we stayed and tried to sort it
out,
Cah I know we woulda fought it out, she thought I was
Superman
Just because she knows I can water drought
Said 'you'd never get the water out',
And my eyes - can I cry? And my pride is my weakness?
I sound cool but I seem stressed
There's no dirt still I see a mess,
I go church but I been blessed
It won't hurt if I sleep more but I sleep less.

You and me, we failed to see
Nothing lasts forever
No it won't be easy,
You will agree

To make this a forever

Look my eyes must be no good,
How can we keep having beef when you don't cook,
Her reason being her deceitful with cold looks,
I'm tryna sleep and you creep through my phonebook
Deleting unknown broads, eager to moan shush,
I ain't here to fight, that's the reason I ain't there
tonight,
It ain't fair it's life, it's like you like it when I'm raring
hype,
But I ain't hyping you should find your baring while I'm
disappearing
It ain't like I'm caring it's just advice I'm sharing, with
you,
I didn't really think I should be wary with you, did you?
Think we'd live happy ever after all the nappy's and the
drama,
I ain't a fan of karma but I believe we'll get our just
deserved,
Cause when it's done it hurts believe when it's love it
burns,
I didn't wanna see us seen through our son's in turns
But in life you got a lot to learn
I wanna wake up to hear him speaking so at least I hear
him mutter words,
You know I'm fly so I love the birds
So I don't see why your surprised when I'm cluckin' girl,
Have the chicken means nothin' girl,
Look I'm only joking but same way I ain't coping
But the case is closed I think it's best we leave a open
gate,
But if you get in need and get inpatient then
Maybe we can reevaluate the situation

You and me failed to see (I never saw it coming)
Nothing lasts forever
(We're all living in some honeymoon period)
No it won't be easy,
You will agree
To make this a forever
