Fenris devour  
Odin the great  
The legend is told

Vidarr's revenge  
For Odin the great  
Puts sword through it's jaws

When Heimdall's horn is blown and Ragnarok is born  
Fenris will rise and devour the great  
And bleed from the jaws, the river of rage  
When Ragnarok's at hand he will rip the magic chain  
Fenris will rise and devour the great Odin himself  
And bleed from the jaws, the river of rage

Gleipnir  
Forged to betray  
Loke's child  
The horrific beast  
Magic  
Is at hand  
Fenris  
Misery
