A storm is drawing near  
The clouds are turning grey  
And from across the silver moon  
The light begins to fade

And from the dark  
Fire soon appears  
Burning through the eyes of death  
And through the thickened air

Blinded be the ones  
Who stares into this light  
The striking of the hammer  
Consumes the blackend night

He has arrived  
Thor, the thundergod  
He rides across the winter sky  
With lightning in his blood

Hail!  
To the hammer of Thor  
To the hammer of Thor  
We hail!  
Kneel!  
To the hammer of Thor  
To the hammer of Thor  
We kneel!  
X2

Wrath is in his heart  
Rage is in his hand  
Striking down upon the cross  
That ravage through this land

He can't be tamed  
He can't be killed  
He raise his hammer in the sky  
And strikes with burning steel

Rise, rise, let the hammer rise  
Burn, burn, let the mountains burn

Fly, fly, through a bloodred sky  
Rise, rise, once again you'll rise

Hail!  
To the hammer of Thor  
To the hammer of Thor  
We hail!  
Kneel!  
To the hammer of Thor  
To the hammer of Thor  
We kneel!  
X2  
Forever we kneel
