A dedication to all the refugees Worldwide

1 time

Say say say I remember when we used to sit
In a government yard in brooklyn
Uba uba solvin the crookedness
as we mingled wit tha good people we meet
good friends weve had and good friends weve lost
along the waaaaayyy
in the this great futur
you cant forget your past
so dry youre tears i say
to my peepz across the way

no woman no cry
No woman no cry

say say say
here little sister dont shed no tears

no woman no cry

say say say
i rememer wen we used to rock
ina project yard in jersey
and lil georgy would make the fire light
as stolen cars pass through tha night
and then weed hit the corner store
for roots, paper and brew
my drapes my only remody
for pain of losin family
but while im gone shorty

evry thing is gonna b alright
evry thing is gonna b alright
fugees come to the dance tonight
evrything is gonna b alright
evryting is gonna b alright
evrything gonna b alright
the gun man is inda house tonight
but evrything is gonna b alright
