[Intro.]

Ladies and Gentlemen:

Boys and girls

It is my pleasure to

Introduce to you all

The finest; the brightest;

The meanest; the strongest

The very best of them all

The south London collective group

Known as:

For goodness sake Roger who is it?

[Chorus]

This is big bro (bro)

Taking over the show

With this new flow, flow

You need to listen up

And feel this shit, shit

Cause we won't quit, quit

We make them hits

And stack them chips

It's Flawless I came for the doe

As soon as I step in the door

I see that you're hating my glow

The crew, the flow we're

Soon to blow

We're tired of being this poor

And having to sleep on the floor

And working a 9 to 5

Just like a five-dollar whore

Knowing we're worth more

We simply had to settle the score,

That's why you see these albums

And the singles in the store

It's Big Brovaz baby trying to

Cash some major figures

You mess with my cheese and I'll switch just like

Schwazernegger

[Chorus]

This is big bro (bro)
Taking over the show
With this new flow, flow
You need to listen up
And feel this shit, shit
Cause we won't quit, quit
We make them hits
And stack them chips

It's Dion
I bet you won't forget my name
I probably maybe gonna
Get inside your brain
My family does the same
It's BB's time to reign
We're doing them platinum things
I know you're not ready for me

You move you lose
Can't wear my shoes
Cherise brand new
Me and my crew
Don't try our flow
If your tongue don't roll
You'll lose control
We're just way too cold

[Chorus]

This is big bro (bro)
Taking over the show
With this new flow, flow
You need to listen up
And feel this shit, shit
Cause we won't quit, quit
We make them hits
And stack them chips

Hey yo this is Jay Rock
And I've got more
Skill's then average
Put us together man we're more than all of yawl can
manage
Cause we be the baddest at it
This here took years of practice
And now it's only more
Money and it's more madness
Stack up on a daily basis,
We've travelled so many places

Switching so many chicks were mixing up the names
with faces
They see the ice and they trip,
They like to ride in the whip
But all I wanna know is if these girls is riding the
ahhhhh

Who?s, who?s, Who?s this!

This is the N.A.D.I you didn?t
Think I was coming at ya
Giving you people a different
Kind of big brother flava
I bet yawl didn?t think I be riding these beats and
making the paper
But I guess that I?m a paper chaser playa and it?s in
my nature

[Chorus]

This is big bro (bro)
Taking over the show
With this new flow, flow
You need to listen up
And feel this shit, shit
Cause we won?t quit
We make them hits
And stack them chips

[Chorus]

This is big bro (bro)
Taking over the show
With this new flow, flow
You need to listen up
And feel this shit, shit
Cause we won?t quit
We make them hits
And stack them chips
