This world is crazy
Holding on tight, trying hard just to keep control
Don't let go
But don't worry baby
I'll show you tonight a way to sooth your soul
C'mon baby, let's go
Oh, I know you're achin' baby
But I'm gonna hold you tight
Until you stop all this shakin'

(CHORUS)

Put a little ass on it (oh, you got to listen baby)
Put a little ass on it (feel the smooth baby)
Put a little ass on it (like a baby, like a baby)
Put a little ass on it (listen, oh listen baby)

Everybody's running, rushing to nowhere, or just
running away
Losing their way, but help is coming
Gotta have faith in a better way, a brighter day
Oh I know you're lost and searchin'
But now I'm gonna show you how, to stop all this hurtin'

CHORUS

I know the sun ain't where it's supposed to be
I know your heart was broke, but baby believe
in me
I'm gonna show you something, thats gonna
make it better
I just need you to follow, my prescription to the letter

CHORUS
