now get the the guns, the drugs,  
From my generation  
I'll take the fall,  
The saints, new confirmation,  
Yeah it's the sex, the gods, the fakes, the frauds  
They're messin' with me,  
Come on, come on, come on,  
Let's get it on...

Move to my music,  
Play the fuckin music  
Move into my music yeah  
(Let's get it on)  
Move to my music,  
Play the fuckin music,  
Live through my music yeah!

Look at the guns, the drugs,  
From my generation  
I'll take the fall,  
The saints, across the nation,  
Yeah it's the sex, the gods, the fakes, the frauds  
They're messin' with me,  
Come on, come on, come on,  
Let's get it on...

Move to my music,  
Play the fuckin music,  
Move into my music yeah  
(Let's get it on)  
Move to my music,  
Play the fuckin music,  
Live through my music yeah!

Forget the lies, the money,  
We're in this together and through it all,  
They said that "Nothin's forever",  
Well they refused to see the change in me,  
Why won't they wake up?  
Come on, come on, come on,  
Let's get it on...

Move to my music,  
Play the fuckin music,  
Move it to my music yeah,  
(Let's get it on)  
Move to my music,  
Play the fuckin music,  
Move to my music yeah!

Move to the music...  
Move to the music yeah...  
Move to the music  
Move to the music yeah...  
Move to the music...  
Move to the music yeah...  
Move to the music  
Move to the music...

Move to my music,  
Play the fuckin music,  
Move into my music yeah  
(Let's get it on)  
Move to my music,  
Play the fuckin music,  
Live through my music yeah!

Move to my music,  
Play the fuckin music,  
Move into my music yeah  
(Let's get it on)  
Move to my music,  
Play that f'kn music,  
Live through my music yeah!
