I know you want me

I know you want me (I know you want me Baby)
I know you want me (I had a Feeling you were watching
me)
I know you want me (Don't you love to have your hands
on me)
I know you want me, I know that you want my love

Dirty thoughts, dirty mind
I'll be your eyes staring from behind
You want my body, You want my touch
You want to do things you never discuss

I know you think about the things I could do to you
I know you're dreaming what you do with me
I've seen the best of them all come and go
There's not a man out there that's man enough for me

I know you want me (Me and my body)
I know you want me (In the fresh morning light)
I know you want me
I know you want me
I know that you want my love
I know you want me, baby
I know that you want my love
I know you want me
I know you want me
I know you want me
I know you want me
I know that you want my love
I know that you want my love
I know you want me, baby
