So .....you think you are untouchable?  
Word Life  
This is basic thuganomics (basic thuganomics)  
Word Life  
I'm untouchable, but I'm forcin' you to feel me  
Word Life  
This is basic thuganomics (basic thuganomics)  
Word Life  
I'm untouchable, but I'm forcin' you to feel me

Whether fighting or spitting  
My discipline is unforgiving  
Got you backing up in the defensive position  
An ass kicking anthem  
Heavyweight or ban them  
holding camps for ransom  
the microphone phantom

Teams hit the floor in this new fight joint  
Like a broken needle, kid, you missin' the point  
We dominate your conference  
with offense that's no nonsense  
My theme song hits, get your reinforcements  
We strike quick with hard kicks  
ducking night sticks, bare knuckle miss  
Who fight this beat?  
You're lifeless, you'll never survive this

Give a guy like Alzheimer's  
Two face rappers walk away with four shiners  
the raw rhymer turning legends into old timers  
My insight is like a viper bitin' though your one liners  
New Deadman Inc.,  
and we're about to make you famous  
Taking over Earth and still kicking in Uranus
