there is no holding me back yep yep yep
I'm just driven by anger
And you're under attack
Just climbing up slowly
I'm the one and only, I
The tease, the ways, the lie
The stumble in your mind
The fear, the hope inside
They hit there

But whatever you need
Ever you got
Ever you want
I'll take everything

But whatever you need
Ever you got
Ever you want
I'll take back again

There's no holding me back
I'm not driven by fear
I'm just driven by anger
And you're under attack
Just climbing up slowly
I'm the one and only, I
The tease, the ways, the lie
The stumble in your mind
The fear, the hope inside
They hit there

But whatever you need
Ever you got
Ever you want
I'll take everything

But whatever you need
Ever you got
Ever you want
I'll take back again

Whatever you need
Ever you got

But whatever you need
Ever you got
Ever you want
I'll take everything

But whatever you need
Ever you got
Ever you want
I'll take back again

But whatever you need
Ever you got
Ever you want
I'll take everything

Whatever you need
Ever you got

Whatever you, oh, oh
Whatever you, ohhh
Whatever you, oh, oh
Whatever you, ohhh
