So you think your untouchable?

Word life
This is basic thuganomics
This is ba basic thuganomics
Word life
I'm untouchable but I'm forcing you to feel me
Word life
This is bas basic thuga, thuga thuganomics
Word life
I'm untouchable but I'm forcing you to feel me

Whether fighting or spitting
My discipline is unforgiving
Got you backing up in the defensive position
An ass kicking anthem
Heavyweight or bantam holding camps for ransom
The microphone phantom
Teams hit the floor It's the new fight joint
Like a broken needle kid you missing the point
We dominate you conference with offence that's no
nonsense

My theme song hits get your reinforcements
We strike quick with hard kicks ducking ice picks
Bare knuckle men through fight pits, beat you lifeless
never survive this
You forgot like old timers
Two face rappers walk away with four shiners the war
rhymer
Turning legends to old timers
My incisors like a viper biting through your one liners
New Dead man Inc and we about to make you famous
Taking over earth and still kicking in Uranus

Word life
This is basic thuganomics
This is ba basic thuganomics
Word life
I'm untouchable but I'm forcing you to feel me
Word life

This is bas basic thuga, thuga thuganomics
Word life
I'm untouchable but I'm forcing you to feel me
You ain't advanced enough to process, potential for
medical concepts
Some objects are foreign like blot tests, arts and sex
complex regardless of your finesse

Your business is a condition of business your lame
vision of an underground physical image underneath
under mind your own typical image
With the precision of percentages and the collision of
sentences
Poetry, beats and mics we untouchable like righteous
sluts with no crevasses
Streets unite we rock righter with dumber beats

Your cats couldn't come this hot
This hot in the summer heat
We get two takes kill your birds the first time you better
stay worthy of my filler or worse rhymes I'm better
than nice check the veteran twice
Leave you beside yourself with fear I'll you kill bury you
twice despite the cover of night tracking your flight like
gorilla warfare where the grass is dense
Approaching me is a quick way to get referred too in
the past tense
Dead da
When the lights and mic is on the crowd is dead like
intermission when your on the Titantron

Word life
This is basic thuganomics
This is ba basic thuganomics
Word life
I'm untouchable but I'm forcing you to feel me
Word life
This is bas basic thuga, thuga thuganomics
Word life
I'm untouchable but I'm forcing you to feel me
