Up and down that lonely road of faith  
I have been there  
Unprepared for the storms and the tides that rise  
I've realized one thing, how much I love you  
And it hurts to see, to see you cryin'  
I believe we can make it through the winds of change  
(chaaaaange)

God is great indeed  
If you believe, in the everlife (Yeah we gotta)  
Make some sense of the pieces not defined (Oh no, Oh  
no)  
And if you just hold on,  
I wont let you fall (I wont let you fall)  
We can make it through the storms and the winds of  
change

(Oh no, Oh no,  
yeah yeah  
No No)

Though I walk through the valley of darkness  
I am not afraid  
Cause I know I'm not alone

And if the wind blows east, would you follow me  
And if the wind blows north, would ya stay your course  
And if the wind blows west, would ya second guess  
And if it blows to the south, would you count me out  
And if the sun don't shine, would you still be mine  
And if the sky turns grey, would you walk away  
Would you say I do, if I say I'll be  
And walk this road through life with me  
You know I love youuuuuu

On this loooooonely road of faith  
On this looooo-oonely road of faith
