I hear a voice say don't be so blind
It's telling me all these things
That you would probably hide
Am I your one and only desire?
Am I the reason you breathe
Or am I the reason you cry

Always x7
I just can't live without you

I love you, I hate you, I can't get around you
I breathe you, I taste you, I can't live without you
I just can't take anymore, this life of solitude
I guess that I'm out the door and now I'm done with you

(Done with you)

I feel like you don't want me around
I guess I'll pack all my things I guess I'll see you around
It's all been bottled up until now
As I walk out your door, all I can hear is the sound

Always x7
I just can't live without you

I love you, I hate you, I can't get around you
I breathe you, I taste you, I can't live without you
I just can't take anymore, this life of solitude
I guess that I'm out the door and now I'm done with you

I love you, I hate you, I can't live without you

I wrapped my head around your heart
Why would you tear my world apart?

Always x4

I see the blood all over your hands
Does it make you feel, more like a man?
Was it all just a part of your plan?
The pistol's shaking in my hands and all I hear is the

sound of
I love you, I hate you, I can't live without you
I breathe you, I taste you, I can't live without you
I just can't take anymore, this life of solitude
I guess that I'm out the door and now I'm done with you

I love you, I hate you, I can't live without you
I love you, I hate you, I can't live without you
I just can't take anymore, this life of solitude
I pick myself off the floor and now I'm done with you

Always x3
