I see the way you look at me  
You envy me (You envy me) and its killing you, (killing  
you) (eating you alive)  
And you know it makes me smile when I look in the  
mirror  
Thinkin' how good it is to be king

Chorus:

And dont you wish you were me?  
The king of all you see  
Don't you wish you were me?  
It ain't that easy  
Don't think you'll ever be,  
Everything a man should be  
Cause dont you wish you were me?  
Keep dreamin' you'll never be me  
Too soon, you'll be a memory  
There for all to see (Forever) Just Illusion (Just Illusion)  
And sometimes it makes me laugh when I see your  
reaction  
Knowing that I've become mighty

Chorus

Inside my mind there is a freak  
That drives me on past all defeat  
You'll never have, you can't instill  
The power of my iron will

Chorus
