I landed in Chicago, everybody loves sosa  
The youth in the street told me  
We love you when shotters  
Chicago, shoot first, think last  
That's still my deal on the street now  
Shoot first, think last  
How long will this blood bath last?  
Shoot first, think last  
That's still my deal on the street now

Shoot first, think last  
How long will this blood bath last?  
Bang, bang, bang, bang  
Everywhere it's a bang, bang, bang  
Goons like ragatang  
Everywhere it's a bang, bang, bang  
Chicago got that bang, bang, bang  
It's a bang, bang, bang  
Goons like ragatang  
Everywhere it's a bang, bang, bang

Welcome to Chicago, where the ghost of Al Capone  
roams the streets  
And the kids they carry heat, and they hungry for the  
feast  
And the dogs will do, whatever it takes to eat,  
Even if they gotta put your kids to permanent sleep

They boys, they shoot first, think last  
That's the model on the street, yea  
Shoot first, think last  
How long will this blood bath last?  
Shoot first, think last  
That's the model on the street, yea  
Shoot first, think last  
How long will this blood bath last?  
Bang, bang, bang, bang  
Everywhere it's a bang, bang, bang  
Goons walk around like orangutans  
Everywhere it's a bang, bang, bang  
Yea, bang, bang, bang

At the mall it's a bang bang bang  
Street corner it's a bang bang bang  
Even in front of the church they bang, bang, bang

God knows, seen the movie Shakas, I've been richy  
yes  
But on these streets, I know the real richy yes  
I got some of my homies, they won't see the next 30  
summers  
They got them in the cage, somewhere down under  
Them boys, they used to

Shoot first, think last  
That's the model on the street, yea  
Shoot first, think last  
How long will this blood bath last?  
Shoot first, think last  
That's the model on the street, yea  
Shoot first, think last

If you wanna get the blood from them eyes show them  
love  
Yeah, show them love  
Wanna get the blood out they eyes show them love  
Yeah, show the youth love  
Wanna get the blood out they eyes show them love  
Yeah, show the youth love  
Yeah, just a little love, all they need is love  
'Cause he grew up with no papa.
