Cuz when i heard his beat i felt Jesus force

I heard it through the wire that he made it out the coma

in a fast car

It was a fast car

(Jerry wanna bring that old school beat back)

Verse 2

Everyday its like the wild, wild west

Bunch of bad boys from the vista outlawed

The softest of beat, the killa get away

He leave Vegas in the end of the day in a fast car

Driving a fast car

Are you ready to ride!?

Chorus

You don't gotta be no billionaire

To get a ticket up to the moon

We all love somebody up there

You need a helping hand look i'm right here

To help you see clearly now(yeah i)

To help you see clearly now(yeah i)

I hope you see clearly now(yeah)

Lupe!

Verse 3

Soon as they wave they check it

They begin to drive wreckless

I hope you have a wreck but walk away defless

And when they rush the car with the extinguisher you

dress into the crowd with your fingers up that you're ok

That you're so safe
That you're so brave
Cuz you live your life with one foot in your own grave
When you're defying death, thats when you're on stage
With a million on the dash and the crowd hoping you
crash
So what the devil did and you prepare for this to be
your last
You ran outta gas

Chorus

Verse 4

Come follow me Come follow me Come follow me
Come follow me
I see 2 kids in the alley, the ski masks and the shotty
One said: you ride shotgun?
We hit the liquor store
We get the cash and take off in the fast car

blast
They try to speed off but the herse don't move fast
