[Intro.]

Ladies and Gentlemen:

Boys and girls

It is my pleasure to

introduce to you all

The finest; the brightest;

the meanest; the strongest

The very best of them all

The south London collective group

Known as:

For goodness sake Roger who is it?

[Chorus]

This is big bro (bro)

Taking over the show

With this new flow, flow

You need to listen up

And feel this shit, shit

Cause we won't quit, quit

We make them hits

And stack them chips

It's Flawless I came for the doe

As soon as I step in the door

I see that you're hating my glow

The crew, the flow we're

soon to blow

We're tired of being this poor

And having to sleep on the floor

And working a 9 to 5

Just like a five-dollar whore

Knowing we're worth more

We simply had to settle the score,

That's why you see these albums

And the singles in the store

It's Big Brovaz baby trying to

cash some major figures

You mess with my cheese and I'll switch just like

Schwazernegger

[Chorus]

This is big bro (bro)  
Taking over the show  
With this new flow, flow  
You need to listen up  
And feel this shit, shit  
Cause we won't quit, quit  
We make them hits  
And stack them chips

It's Dion  
I bet you won't forget my name  
I probably maybe gonna  
get inside your brain  
My family does the same  
It's BB's time to reign  
We're doing them platinum things  
I know you're not ready for me

You move you lose  
Can't wear my shoes  
Cherise brand new  
Me and my crew

Don't try our flow  
If your tongue don't roll  
You'll lose control  
We're just way too cold

[Chorus]

This is big bro (bro)  
Taking over the show  
With this new flow, flow  
You need to listen up  
And feel this shit, shit  
Cause we won't quit, quit  
We make them hits  
And stack them chips

Hey yo this is Jay Rock  
And I've got more  
Skill's then average  
Put us together man we're more than all of yawl can  
manage  
Cause we be the baddest at it  
This here took years of practice  
And now it's only more  
money and it's more madness  
Stack up on a daily basis,  
We've travelled so many places

Switching so many chicks were mixing up the names  
with faces  
They see the ice and they trip,  
they like to ride in the whip  
But all I wanna know is if these girls is riding the  
ahhhhh

Who's, who's, Who's this!

This is the N.A.D.I you didn't  
think I was coming at ya  
Giving you people a different  
kind of big brother flava  
I bet yawl didn't think I be riding these beats and  
making the paper  
But I guess that I'm a paper chaser playa and it's in my  
nature

[Chorus]

This is big bro (bro)  
Taking over the show  
With this new flow, flow  
You need to listen up  
And feel this shit, shit  
Cause we won't quit  
We make them hits  
And stack them chips

[Chorus]

This is big bro (bro)  
Taking over the show  
With this new flow, flow  
You need to listen up  
And feel this shit, shit  
Cause we won't quit  
We make them hits  
And stack them chips
