We got the Refugees All-Stars rubba dubbin' in the club
Wyclef Jean, John Forte, Prizewell
Nah mean the streets are gettin' a little crazy
Looka, looka, looka, looka, looka
Looka, looka, looka, here looka shorty got back
Should I ask her for a dance

Hold on, there's too many in a wolf pack
And besides Dirtycash talkin' to her
Buyin' her fake furs and takin' her to the fever
Quite as his kept that ain't even his Benz
She spends his franklins at the malls with her friends
Material girl livin' in a material world

But it's alright 'cuz it's Saturday night
So mista funkmaster pump the Bee-Gees
And all you college students bring your ouijas
Check the spellin', R E F U G E E
Get the CD from Sam Goody he, he
You ain't even close wit the rhymes that you wrote
Don't be mad 'cuz you broke
Let me clear my throat, ah huh, ah huh
John Forte grab the mic roots, sway it this way

I more than just a rhymer, you still a small timer
Hopin' that the game treat that ass a little kinda
Every step tango'd, your beat don't concern me
I'm eatin' mangoes in Trinidad wit attorneys
(Oh yea)
My crews slang flow worldwide like a current
Wit da every spot where nobody get insurance
Brotha do the math, you ain't half near exotic

My man's claim true, you forget about it
Pope hoe just a new stance like my influence
Well, recognize you a lie tryin' do it
Got juice told your lady oops, we nuts baby
Smooth and charismatic, automatic, you gonna save me

God bless the day that my sons survive
We strive to teach the youth baby and stay alive

Refugee camp, nuts baby
John Forte, yo, watch your lady
Yo, watch your lady
Eh ah, special ill rhyme Dirtycash
Yo, if you got more than dollar in your pocket
Right now, put your hands up

Yo yo, you can tell by the way I roll
Shorty, that I'm a ladies man, a business man
Condos down the shore, multi million pension plans
But it ain't in my plan to make move without the fam
I keep it intact, you Clef do the track

John play da mack while I pay the tax
Business as usual, watchin' suspects
Steal my assets, get cut with gillettes
We built this concept, connect like nynex
Drinks at the bar, my American express

Yo, I cook up, cook up
The cop a pull up, pull up
Then I cuff up, cuff up, you who's callin' bluff
Now you shook up, shook up
'Cuz you lock up, lock up
When I love up, love up, you who's callin' bluff

Hey yo, John is chillin'
Dirtycash chillin'
What more can I say we livin'
That's what we got, we got it good
And since you understood, we be

Yeah, live at the carnival, 97 till infinite, ha
Refugee All-Stars
Can't stop the shining, can't stop the shining
Can't stop the shining, can't stop the shining
You wanna stop the shining, you wanna stop the
shining
You wanna stop the shining, you wanna stop the
shining
Can't stop the shining, can't stop the shining
