She said she always gonna be, daddy's little girl
Look at her style, look at her swag
Look at her stuntin like

[Hook]

I be stuntin like my daddy did, stuntin like my daddy
did
Everywhere I go man I'm stuntin like my daddy did
All you gotta do, look into my eyes
Look into my dream yo, it can never die
She stuntin like her daddy man, she stuntin like her
daddy
Everywhere she go, she stuntin like her daddy
I love your cat walk, the way you hold your head high
You got every man lookin but they can't get the prize

I gotta do this for my mama, gotta do this for my
daddy
And a little for the block, gotta make it for my homies
My little brother playing ball
That he says if you win you get to have it all
George Michael swag, so all I do is hit the fate
Look at the pictures on the wall, my dad's amongst the
great
Designer this, designer that, I'm running out of closets
space
But daddy never let it get to my head, amazing grace
The boys don't know how to play
Once they know my daddy's wait
They don't misbehave, they don't wanna see the great
I can do without the pain, gotta treat this baby
Like everyday is my birthday

[Hook]

daddy

I love your cat walk, the way you hold your head high
You got every man lookin but they can't get the prize

Well I'm stuntin like my daddy, I'm not daddy's little girl
Got my passport stamped up all around the world
With my red dress depend at all
Sport cars, gold, diamonds and taj mahal
Eyyy, here's the plan, let's get a jet
World tour, Bangladesh, what's next
Every man got a tattoo on they chest
Trust me I'm clearer voyant when it comes to dreams
I told destiny's child that they would be the young
supreme
The boys don't know how to play
Once they know my daddy's wait
They don't misbehave, they don't wanna see the great
I can do without the pain, gotta treat this baby
Like everyday is my birthday

[Hook]
