"We Made It"

You bleed I bleed so why should I fear the man that got
the chopper up in his hand
You try I cry everybody want to be Scarface but nobody
want to die
If I never made it I could have never had the rubber
band start up kit stick up glutes from here to
Connecticut
If I never made it by the time they found my
whereabouts blaze of glory I would've went out in a
shoot out
If I never made it I prolly cock back the iron shoot
myself 9 times get rich or die trying
If I never made it right in front of the judge right that
day he give me life I would've let em understood

[Chorus:]

But I made it oh boyz it's the first of the month and my
government cheese we made it If I made it you can
make it you gotta take it Brenda still gotta a baby her
man in the penitentiary I'm a send a kite to let her know

You bleed you made him bleed you never feared the
man that had the chopper up in his hand yeahhh
You cry oh you made them cry everybody want to see
saint Paul but nobody want to die yeahhh
And my teacher suggested I was supposed to end up in
the dump in the back of the trunk body smelling like
skunk
She predicted there would be no 21 could it be cause
the good die young
Oh on a life I'll be carried in the casket saw the future
like my name was Nostradamus
But what she don't know before I was born it was
written I would come in the form as a Hasion

[Chorus:]

But I made it oh boyz it's the first of the month and my
government cheese we made it If I made it you can
make it you gotta take it can't nobody stop ya we gonna
go to jupiter and if a hater want a hate you tell em

You bleed I bleed so why should I fear the man with
that billfold in his hand recession time
You cry we cry everyone wants a lushion but nobody
wanna die
Barmully told you bout the exedus I come to tell you
bout the genesis in the beginning yeah we were
created yeah to be the greatest yeah let me hear ya
say
Barmully told you bout the exedus I come to tell you
bout the genesis in the beginning yeah we were
created yeah to be the greatest yeah can't tell me
different yeah

[Chorus:]

But I made it oh boyz it's the first of the month and my
government cheese we made it If I made it you can
make it you gotta take it well we go ghetto somewhere
in the convo I know they listening prayin wishing they
children

Don't bleed cause we bleed why should we afraid to
call the man they got the law up in them hands
The middle east cry dry your eyes tomorrow tho the
sun will rise yeah
