For a while I was happy for a while I had you
The thought never once crossed my mind
But you walked away with the only world I knew
And leave just a mem'ry behind

But all of the sudden it's a lonely world all of the
sudden I'm alone
All of the sudden I miss you girl cause all of the sudden
you're gone
[steel]
I don't know what happened to dive you away
And leave all these heartaches behind
I just hope you're happy and I pray that your world
Is never as empty as mine

Cause all of the sudden...
Cause all of the sudden you're gone
