"Arm's Lenght From You"

I'm just a smile away from cryin' whenever I'm this
close to you
Just a touch away from heartache just an arm's lenght
from you
I'm just a step away from sadness a memory away
from blue
A happy moment away from lonesome just an arm's
lenght from you

Though I know it would be heaven while my arms were
holding you
I'm afraid you're gonna leave me I'm just a kiss from
missing you
So close to something right next to nothing and you
know how I love you
And you know you'll always find me just an arm's
lenght from you
[steel]
Though I know it would be heaven...
