Faded dreams and buried schemes
They never worried me
Promises lost and secrets tossed
They have no remedy
Yeah, you can lay your head
down in the ground
Or move on with me yeah
Photographs fade easily
They need to be locked away
I don't ask much of anything
But conspiracy
Conspiracy of the heart
Of the heart
Well we made mistakes before
And I know that we'll make them all again
I can take all that along the way
'cause I know that from here and out
That you will always be my friend
Well it's yesterday, today, and tomorrow
Another bend in the road
Photographs fade easily
They need to be locked away
I don't ask much of anything
But conspiracy
Conspiracy of the heart
Of the heart
And there's so many things that try to pull us apart
And there's so many things to deny
It's harder everyday to find the love in our hearts
It's not easy but I'll try
Photographs fade easily
They need to be locked away
I don't ask much of anything
But conspiracy
Conspiracy of the heart
Of the heart
Photographs fade easily...
Fade away
