I'LL BE YOUR STEPPING STONE

Darling please let me be your stepping stone  
You told me once just how my kisses thrilled you  
Since that time there'd been many lips you've known  
When you stepped out on him to find a new love  
Darling please don't miss your stepping stone  
I'll be your stepping stone  
The one you're stepping on from him to him  
You'll need  
true love some day I'll be a step away  
So darling please don't forget your stepping stone  
Let me be your stepping stone...  
Oh darling please let me be your stepping stone
