"It Always Rains On Me"

Visit "[It Always Rains On Me](#)" on MotoLyrics.com

I don't think you've looked back once since you said
goodbye
The good times just keep rolling on they just pass me
by
It's not that I don't wish you well but darling don't you
see
Each day the sun shines down on you it always rains on
me

A friend of ours just dropped and he just made my day
It's good to know the latest news it's just a friend away
He said you're happy with your new life and glad that
you're free
But each day the sun shines down on you it always
rains on me

It always makes me sad to think that someone new
Is turning all your sunshine the way I used to do
It's not that I don't wish you well but darling don't you
see
Each day the sun shines down on you it always rains on
me
Each day the sun shines down on you it always rains on
me
