### "I've Got Your Love"

Visit "[I've Got Your Love](#)" on [MotoLyrics.com](http://MotoLyrics.com)

You've dropped pennies in a wishing well  
And wished on every star that fell  
Trying to find a heart of gold  
You've even called the psychic line  
But all of that's a waste of time  
I know what your future holds

If you want a love that never ends  
Take my hand and let forever begin

I've got your love  
Don't need to wish upon a star  
Dreams don't have to be that far  
Just look inside my heart  
I've got your love  
Don't need to wear that lucky charm  
To keep the magic goin' strong  
Cause here in my arms  
I've got your love

If you just take a chance, believe in me  
It won't be long until you see  
What I've known all along  
I'm meant for you, you're meant for me  
There's no escapin' destiny  
I promise from this moment on

I'll give you a love that never ends  
Take my hand and let forever begin

I've got your love  
Don't need to wish upon a star  
Dreams don't have to be that far  
Just look inside my heart  
I've got your love  
Don't need to wear that lucky charm  
To keep the magic goin' strong  
Cause here in my arms  
I've got your love

There's a stairway to heaven

I'll take you all the way

I've got your love  
Don't need to wish upon a star  
Dreams don't have to be that far  
Just look inside my heart  
I've got your love  
Don't need to wear that lucky charm  
To keep the magic goin' strong  
Cause here in my arms  
I've got your love

I've got your love  
Don't need to wish upon a star  
Dreams don't have to be that far  
Just look inside my heart  
I've got your love  
Don't need to wear that lucky charm  
To keep the magic goin' strong  
Cause here in my arms  
I've got your love
