"The Flood"

These nights are longer
But we press on through the flood
The sea is calling
But to go, nobody should
Nobody should
Nobody should

But have we all forgotten what light from our eyes can
do
So in the end, the truth will descend
On your head like a rain from above

Why are you waiting
Why are you waiting
The storm has been lifted
Look out to the mountain
Look out to the mountain
The whole thing falls away

But have we all forgotten what light from our eyes can
do
So in the end, the truth will descend
On your head like a rain from above

Just fight with your bare hands

It's all coming to an end
The suffering you will endure
Will surely kick your spirit in
Will surely kick your spirit in
I was offered romance at the altar
And now we see I'm flying away
All the things that the world has told me
I lend a deaf ear
We all feel the same

But have we all forgotten what light from our eyes can
do
So in the end, the truth will descend
On your head like a rain from above

But have we all forgotten what light from our eyes can

do
So in the end, the truth will descend
On your head like a rain from above
