Foolio  
Yo, This is a definition of a foolio  
Foolio, always on his cell  
Checking messages that he sent himself  
He's got ten pagers  
but you never seem to here them beep  
And he claims he's a ladies man  
but i say that he is just a creep  
Nothing but a foolio  
Silly me  
I just had to see  
For my friend said she  
had someone for me (finally)  
He said the limo would come at five thirty  
i never saw a gypsy cab look so dirty  
ice creams and big macs and would you like fries with  
that?  
No, you can never eat them slow  
You're a foolio as the story goes  
You said it was a rolex was a casio  
You're a foolio  
Your mama told you no  
She said you're not her type cuz you're a foolio  
Foolio, you're a foolio  
you're a foolio  
you're a foolio
