One love one heart
Is this a brand new start
Since you have been gone
I haven't felt this alone
One look in your eyes
You had me petrified
Since you have been gone
I haven't felt this alone
I cannot keep on fooling myself
This is love nothing else
No matter how long we have been apart
This is a brand new start
I feel love yeah yeah
I feel love yeah yeah
No one could feel the way I feel about you
Pick u the phone and say you are coming home
One look in your eyes
You had me petrified
Since you have been gone
I haven't felt this alone
I cannot keep on fooling myself
This is love nothing else
No matter how long we have been apart
This is a brand new start
I cannot keep on fooling myself
This is love nothing else
No matter how long we have been apart
This is a brand new start
I feel love yeah yeah
I feel love yeah yeah

I cannot keep on fooling myself
This is love nothing else
No matter how long we have been apart
This is a brand new start

Thanks to feel
