[Being in a world which doesn't accept us as human beings we are obliged to]
[riposte, making a plunge into misanthropy. Now and till the great change we]
[will be: hater of mankind.]

Rupture with a dominate world
Decision to forget their eminent spoken words
Starvation on the human race
Beyond soul sins phosphorated

Lived by hate end was near
We shan't accept this living in tear
Death isn't the only way
Consecrated God in heaven: "Let them disobey"

[chorus]
Hater of mankind
Faith in the human genocide
Misanthropic outrance
Alteration of human race

Gulped dow all those atrocities
Vivisection, gaz chambers, decadence and diseases
Repression of incultured minds
I'm searching an escape from the human kind

[chorus]

Follow my path, walk behind me
Conjunctural difformity
Obstructed conflict with colored skin
Racism exposure induce on my medicine
