V1) Did my heart once fly like a bird?  
Did I once have you near me?  
Look at me now, I'm on the ground  
Telling myself it can't be true

CH) But I think that I still love you, what am I to do?  
I can't stop thinking about you, no I can't get over you  
You and I are somehow in my heart together still  
I think that I still love you, and I always will

V2) And now I wake up alone  
In the bright early morning  
Where you once slept there's nothing left  
The sun's streamin' in but I'm so cold

CH) And I think that I still love you, what am I to do?  
I can't stop thinking about you, no I can't get over you  
You and I are somehow in my heart together still  
I think that I still love you, and I always will

Bridge) Every day I miss you even more  
I keep lying to myself that I don't need you, no more,  
no more

Ch) But I think that I still love you, what am I to do?  
I can't stop thinking about you, no I can't get over you  
You and I are somehow in my heart together still  
I think that I still love you, and I always will
