"Life is shit - I hate myself"  
Weakness of sick mind  
And now you stand beneath the clouds  
In ocean of moonlight  
Damn this life!  
It's obsolete  
Eternity will be my grave  
I make my step behind the line  
This day will decide my fate

Only one step for limits of life  
Darkness blinds your forever faded eyes  
And someone cries from outside

Love you  
I just want to say  
I love you  
Wake up and go back home  
For me and for you  
I watch you defenseless  
And blinded by light  
I want you wake up and  
Come back

Feel the snow upon your face  
The last flight is very short  
Feel the wind of winter night  
As mourning heart it is cold  
Feel the last pain of your life  
You are headless in your grave  
Dreams and hopes  
Forever fade  
In the pieces of your brain

Floor by floor  
Straight to the ground  
Eleven, ten, nine  
Was It the only way out?  
Eight, seven, six  
Do you want to return?  
Five, four, three  
Is it for what you were born?

You saw no difference  
Between problems and tasks  
Sorry, man  
Your choice was so fast  
Two, one, crush  
Did you want to stay?  
In the world that you left  
You left only pain
