Look at you.. still keepin it real huh?  
Look baby.. we gotta go.. and emotions will come..

If you wanna be my lady just say it..  
If you wanna be my lady..  
Just say it..

Chorus:

If you wanna be my lady, just say it just say it.. huh..  
If you wanna be my girl, just love me today (yeah)  
If you wanna be my baby, just make me go crazy  
If you wanna be my lady, just say it just say it girl

Now look baby, take me to that place  
Where we can kiss each other make it face 2 face  
Lips 2 lips now it's gettin better huh?  
So lady, my baby, is just the weather huh?

We can go n ride we can go n fly  
Question my love to you, but you know im gonna try  
Just erase my madness from my brain  
Melt my heart, nothin to lose but too much 2 gain

Open up your spirit, let me enter into it  
Get inside your deepest secrets, one for another bit  
Walk me into you, so I know where to go  
Show me all your paths, and I will know ya fo sho

Every step in the shadows is just another universe  
I thought i had lost love, thought it was deep in that  
hearse  
But you brought it back to life, showed me the sky  
Made me know ya so I know you're really right

So baby, tell me how we're gonna roll  
How we gonna flow our love, make it never fall  
Charm it so it won't disappear  
Cause the sphere of our fear is gettin really weird  
Let's just capture it, keep it just forever  
And never let it die, you know that better than anyone

Chorus

So come n ride, come lets fly  
If you wanna know why, lets just dance  
I would kill for you, fight for you  
Smoke for you, and have fun with you  
You wanna ride with me, come get high with me  
You just need to say and touch my bo-dy  
Mad lovin from your unique smuggler in the world  
So baby my lady come with me girl  
The simple vision of your eyes makes my head go  
crazy  
Makes my brain to wake up to stop being lazy  
First time I saw you and asked for your phone #  
You didn't knew but my heart burn like lumber  
And if you wanna come hug me and trip on my bed  
I'll tell you "i wanna make love with u today"  
Directly in your ear, so you won't even fear  
And aproach to my sphere.. with a love-making spear
