(Bundrick)
I was on my way
To a needle factory
Up and coming prospects
Was a waiting there for me
I was selling my wares
Three bucks a share
Three bucks a share
Three bucks a share
I was walking down
Down a rocky road
And found a noisy rising sun
And a quietly burning moon
They were standing in time
Standing in time
Standing in time
(Waiting for a) fantastic time
Standing in line
Like a stallion chasing fear itself
Watching God sit up on His shelf
We were restless
We were restless
We were restless
But we had to keep on going
We were restless
I was looking high
But I was feeling low
Sun said "Man don't sweat"
The moon kept still and glowed
The truth is in the eyes
Of common mortal man
And you can believe
It's all in the grief
It's all in the grief of Satan
Truth is in the eye
The truth is in the eye
The truth is in the eye
The truth is in the eye
