Listen - trapped again  
Love on a lead is what you need  
Love on a leash is what you wish  
Love on a tightrope is what you get  
Love on a steep slope you ain't seen nothing yet  
When you smile, that wide wide smile  
That tiger smile, I'm trapped again  
Be my dog, be my pet, like a nervous tic  
You just won't quit, like a nervous tic you just won't quit  
You don't need a doctor, you need a vet  
And when you laugh, your crazy laugh  
That wild cat laugh, I'm trapped again  
Love on a tightrope, love on a tightrope  
Our love's on a steep slope  
Love on a tightrope  
No don't give up hope 'Cos when you wish upon a star  
Makes no difference who you are  
Don't give up hope our love's on a tightrope  
Like a tiger cat you're where it's at  
Like a crocodile along the Nile  
So strange and wild, some kind of reptile  
Love on a lead is what you need  
And when you smile, that wide wild smile  
That tiger smile, I'm trapped again  
Trapped again  
They say never bite the hand that feeds  
Just one look and my heart bleeds  
Love on a tightrope, love on a tightrope  
You know, our love's on a steep slope  
Love on a tightrope  
No don't give up hope, 'Cos when you wish upon a star  
Makes no difference who you are  
Don't give up hope our love's on a tightrope  
Animal eyes - like a real good time  
Animal lips it's a perfect crime  
Animal hair it just ain't fair  
Like an animal  
You're an animal
