Rodgers)

If you see me flying  
All across the sky  
There I go. I'm a flying high  
Six white horses  
A chariot made of gold  
Seven lovely angels aside my soul

I've got the moon on my right  
The sun on my left  
The world is behind me  
Only one way to go  
That's straight ahead  
That's where I'm going

I've just stepped out  
Out of my rave  
There I go I ain't no slave  
In my right hand  
Is the word of truth  
In my left hand is the fire of love

I call to the land  
I call to the sea  
I call to the sky  
Lord have mercy  
Won't you hear me

Wings on my back  
Wings on my back  
I've got to fly away  
I've got to fly away  
You know I just can't wait till tomorrow  
I've got to fly away  
I've got to fly away  
There I go
