"Son Of Earth"

Hideous louse!
The face deformed by horror,
By the fear of life's duties,
By the anguish of the unknown
- Born in blood and tears
- You'll bleed and cry when the day you die
Welcome to the world of the living
Here's your supreme punishment
Look at the wound of life
That only death will be able to heal
Oh! Bulged tummy women
Oh! Deformed body women
From your filthy womb
It's death to whom you give birth
Hideous louse!
The face deformed by horror,
By the fear of the nothingness of death,
By the anguish of the unknown
Welcome to the kingdom of the dead
Here's your promised reward
Looks on you to close again
The great vagina of the Earth
