TITLE: "THAT'S WHAT I NEED"

ARTIST: SWV

WRITTEN BY:

I need someone to share all my dreams with
That's what I need
Someone special who will love me just for me
That's what I need
I need someone to hold me tight
And be a good lover all night
So many times I opened up my heart
Only to let someone tear it apart
That's what I need

CHORUS

Someone to treat me right
Make love all through the night
That's what I need
(Because I've been hurt before)
I've been hurt before
Real love I'm looking for
That's what I need
I need someone who will never leave me lonely
That's what I need
Someone faithful to love me as their one and only
That's what I need
I need someone to share my ups and downs
And lead me through the bad times
Will always be around
So many times I've opened up my heart
Only to let someone tear it apart
I need
(REPEAT CHORUS)
Someone who will treat me right
Make real love all through the night
Someone who loves me for me
I realize that's what I need
(REPEAT CHORUS)
