There Must Be A Woman
{ 2 phrase }
Every day I see your face
Come shining down on me-ee yeah
Now I see the way it should be-ee-ee
and the way that it is ya ya
Ya-a!
((There must be a woman))
((There must be a woman))
In my life
I just got to see it right yeah-ya
I could see I could see it like right there in front of my
face
Wo lord do you know I'm giving my face
((There must be a woman))
((There must be a woman))
Now I just want to know
What happens on the other side of your life
Wo you know let's pretend me more than twice
I just got to see, I just got to see for my eyes
((There must be a woman))
((There is a woman))
Oh yeah-ya because I just want to do good
because what runs deep down inside of me
It's a feeling you can't just let free
((There must be a woman)), oh lord yeah
((There must be a woman)), oooh yeah
There's one of us peoples
One of us peeeeeee--ooh-ya-a-ya-ya-a
((There must be a woman))
{ END }
