We shall re-cultivate our vast fields  
Eradicate all insolent plague  
With the seeds of ethereal wisdom  
Numen of pure fecundity  
Itzam Na from the empyrean  
Fertilize the aridity of all mudane age  
And fill of brightness the landscapes of my homeland  
I'll vanish in darkness the valleys of them  
As the 13 gods in skies did fall below the underworlds  
sharp  
The dzules Christian way will collapse in the hands of  
us  
The ones with no water over the head  
For the wrath of Naxit Xuchit  
For the wrath of Canhel  
For the wrath of the Plumed serpent  
Dzules subdued I deeply inter the spines in Christ
