every man wants a woman where him and her can just  
go hang  
just the two of them alone doing their own thing.  
And every man wants a woman,that can always keep  
him in the mood  
and im that kind of girl so this is what i tell my dude

repeat 2  
chorus:kick off your shoes and relax your feet party on  
down with the  
xscape beat(just kick it) just kick it, just kick it

verse2  
Every man wants a woman who can cook him up a good  
meal  
A woman he can treat like his homie take her out on the  
and just chill  
and every man wants a woman who ain't good for just  
layin on her  
back. And I'm that kind of woman so before me and my  
gets in the sack  
I tell him to  
repeat chorus until fade
