Never gonna put you out,  
never gonna let you down.  
Never gonna break your heart,  
never gonna mess around.  
Never gonna tell you lies,  
never gonna make you cry.  
All those things you said,  
now would you mind tellin me why  
Im out here all alone,  
and im feelin left out.  
My hearts broken up in two,  
im wonderin what was true.  
Hearing all the shit you said,  
now somebody else is in your bed  
But now that ive got your attention.....

Listen to the sound of me breakin down, down, down.  
cant you hear me losin my mind.  
Everything thats everything is nothing.  
i cant tell your truth from your lies.  
This is the sound of me breakin down, down, down  
over and over in my head.  
Your a liar, a liar, a liar.

So why dont you just hush up all that noise  
thats all it ever was.  
How you gon try to confess  
what you should have said.  
Just a simple friend, i didnt  
mean to fall in love.  
But I fell for that spell that you cast  
and as if that wasnt enough.  
Now wait a minute baby,  
i gotta get this off my chest somehow.  
But im runnin out of ways to say just what i mean,  
can you tell by the look in my face that i just wanna  
scream.

(chorus)

All the things you do in the heat of the moment

it can cost you a lifetime of happiness.  
All the things you do in the heat of the moment,  
in many days to come can bring you nothing but  
distress.  
All the things you do in the heat of the moment,  
you may think everythings goin right, but the very next  
day....  
All the things you do in the heat of the moment.....

(chorus til fade)
