"Birth Of Ignorance"

Innocence and prejudice
Ruling perverse minds
Molded by environment
Hatred of all kinds
Never knowing tolerance
The ignorant domain
Never knowing freedom
Wear it like a chain
Don't you think
Don't you see
Don't you fool
Don't you see their lies

All your hate is useless
You don't have a cause
Breeding hate with no excuse
Starting racist wars
Religion teaching lies
Hypnosis of the weak
believing false prophets
Slaughtering the meek
Don't you think
Don't you see
Don't you fool
Don't you see their lies

Justify you bias
Give me reasons why
Innocent victims
Murdered by your lies
All the hate that you create
A product of stupidity
All the statements you have made
Have no real validity
