### "Monster Effect"

Dreams - what's haunting me  
Fear - that's the key  
I'm deader than a dog  
With a rattlesnaking cough  
My head's between my legs  
I'm useless 'til I get my dreams  
"They're eating me!"

I'm a living walking nightmare  
A testament to fear and they're reaching out for me  
There's something in my head  
I want to close my eyes, but they're always  
In there, messin' with my dreams  
"They're eating me!"

I close my eyes with darkness all around  
The shapes move in and pin me to the ground  
I hear my screams and they're inside my head  
I think I'm suffering from the monster effect

I'm asking for asylum  
Somewhere in bedlam town  
The sands of time have run out  
Bleeding madness all behind  
Please unlock this door  
And leave the craziness behind  
Say - goodnight - mind
