Once again I end up biting the bullet.
Don't act surprised, by now it's second nature.
It happens over and over again.
I only bend so far before I break,
And in return, nothing leaves me satisfied.
But it's only a matter of time.

Won't be long, I smell the fuse burn shorter,
And I'm not about to snuff it out.
I'll take this head on till the end.
Hear my voice, no cries for deliverance.
I've become the victim of my own defense,
And there's no one to blame but myself.

As the structure fails,
I'll pray for the fall out.
For I am what I create.
As the embers rise,
I'll be at the bottom.
When it all comes down,
I'll carry the weight of the world.

Strapped to my back,
I'll carry the weight of the world.
Chained to my neck,
I'll carry the weight of the world.

As the structure fails,
I'll pray for the fall out.
For I am what I create.
As the embers rise,
I'll be at the bottom.
When it all comes down,
I'll carry the weight of the world.

Strapped to my back,
I'll carry the weight of the world.
Chained to my neck,
I'll carry the weight of the world.
Strapped to my back,
I'll carry the weight of the world.

Chained to my neck,
I'll carry the weight of the world.
